DETAILED ACTION

Prosecution Reopened

1. Prosecution on the merits of this application is reopened on **Claims 1-34 and 58-83** considered unpatentable for the reasons indicated below:

Original Patent

2. Receipt is acknowledged of the original letters patent which was received on 9/27/02.

Reissue Applications

3. **Claims 1-34 and 58-83** are rejected under 35 U.S.C. 251 as being an improper recapture of broadened claimed subject matter surrendered in the application for the patent upon which the present reissue is based. See *Hester Industries, Inc. v. Stein, Inc.*, 142 F.3d 1472, 46 USPQ2d 1641 (Fed. Cir. 1998); *In re Clement*, 131 F.3d 1464, 45 USPQ2d 1161 (Fed. Cir. 1997); *Ball Corp. v. United States*, 729 F.2d 1429, 1436, 221 USPQ 289, 295 (Fed. Cir. 1984). A broadening aspect is present in the reissue which was not present in the application for patent. The record of the application for the patent shows that the broadening aspect (in the reissue) relates to subject matter that applicant previously surrendered during the prosecution of the application. Accordingly, the narrow scope of the claims in the patent was not an error within the meaning of 35 U.S.C. 251, and the broader scope surrendered in the application for the patent cannot be recaptured by the filing of the present reissue application. In Claim 1, line 21 and Claim 16, line 17 of the instant reissue application, "projection from" has been deleted. This is

Art Unit: 3726

an improper recapture of broadened claimed subject matter because applicant surrendered the “projecting from” limitation in the parent case. Claims 30-34 are missing the limitations of the transport arm projecting from the axis/drive shaft in combination with arms operatively coupled to conveyors to move the conveyors move the conveyors relative to the axis/drive shaft. This is an improper recapture of broadened claimed subject matter of the present reissue application because applicant surrendered these limitations in the parent case.

In the parent case, Claims 8 and 9 were put in independent form in combination with the limitations of Claim 1. Claim 8 included the limitations “projecting from”. Because applicant intentionally put the limitations of both Claim 8 and Claim 9 in combination with independent Claim 1, applicant surrendered the subject matter of Claims 8 and 9. Applicant essentially amended the claims to place the claims in condition for allowance. The examiner in the parent case indicated that Claim 9 included allowable subject matter and that if applicant put the limitations therein in independent form including all of the limitations of the base claim and any intervening claims the case would be allowed. Since applicant also included the limitations of Claim 8 into independent form, the limitations therein were also surrendered.
